An exploration of thermionic audio from the fifties to the present-day, This lecture will look at modern technological advancements and their incorporation into the thermionic audio field. There will also be a demonstration, comparing thermionic against transistor audio, so come and hear the difference!

The Thermionic Audio event foreseen for November 26th has had to be cancelled.

If you would be interested in attending this event if we manage to hold it at another time, send a message to events.essex@iee.org

Regards

James Burgess
