Lost time due to congestion on the roads accounts for an estimated £2-4 million of lost business every week in London. Congestion charging encourages the use of other modes of transport whilst trying to ensure that, for those who have to use the roads, journey times are quicker and more reliable.

Explores the technology behind the charging scheme:

- 203 enforcement cameras
- Automatic number plate recognition
- Billing and payment systems

Wednesday 8th October 6:00 for 6:30pm

Telford Lecture Theatre, BAE SYSTEMS, Advanced Technology Centre, Gt. Baddow, Chelmsford

The Institution of Electrical Engineers, registered as a charity in the UK
